FED-STD-595B AEROSOL

MILSPRAY's Fed-Std-595B non-CARC Aerosols were developed to provide an exact and precise match to today's true military camouflage colors. Commercially available aerosol paints do not provide a match to the federal standard and are often diluted with inexpensive solvents. **MILSPRAY's** Fed-Std-595B aerosols are concentrated, heavily pigmented and provide military-grade wear, chip and mar resistance, and are well suited for exterior applications as they contain an additive that provides for superior UV resistance. They may be applied to any metal surface that has been previously painted, or over our gray aerosol primer. This product is exceptional for touching up nicks, scratches and blemishes that occur during the assembly phases of product manufacturing.

THIS IS NOT CARC MATERIAL

Features: Inexpensive means of touching-up military finishes; exact match to Fed-Std-595B colors; quick drying formula - 12 minutes; heavily pigmented; interior/exterior use; fade resistant.

Volume: 6 oz (170g) • **Coverage:** 10-12 Square Feet at 1 mil DFT • **Disposal:** Empty aerosol can

Intended Use: Touch-up of all metal surfaces previously painted or primed • **Shelf Life:** 1-3 years (dependent on storage conditions)
